

**Brexit What Next?**

#BrexitDiagram Series 3, V32  
23.10.2019, 1800

by Jon Worth - @jonworth on Twitter  
Diagrams are Creative Commons  
Sharealike Licensed - use them as you  
wish, with credit

High resolution PNGs and PDFs, and XML  
and ODS files of all versions are always  
at:

https://jonworth.eu/brexit-what-next/  
Diagram is organised chronologically

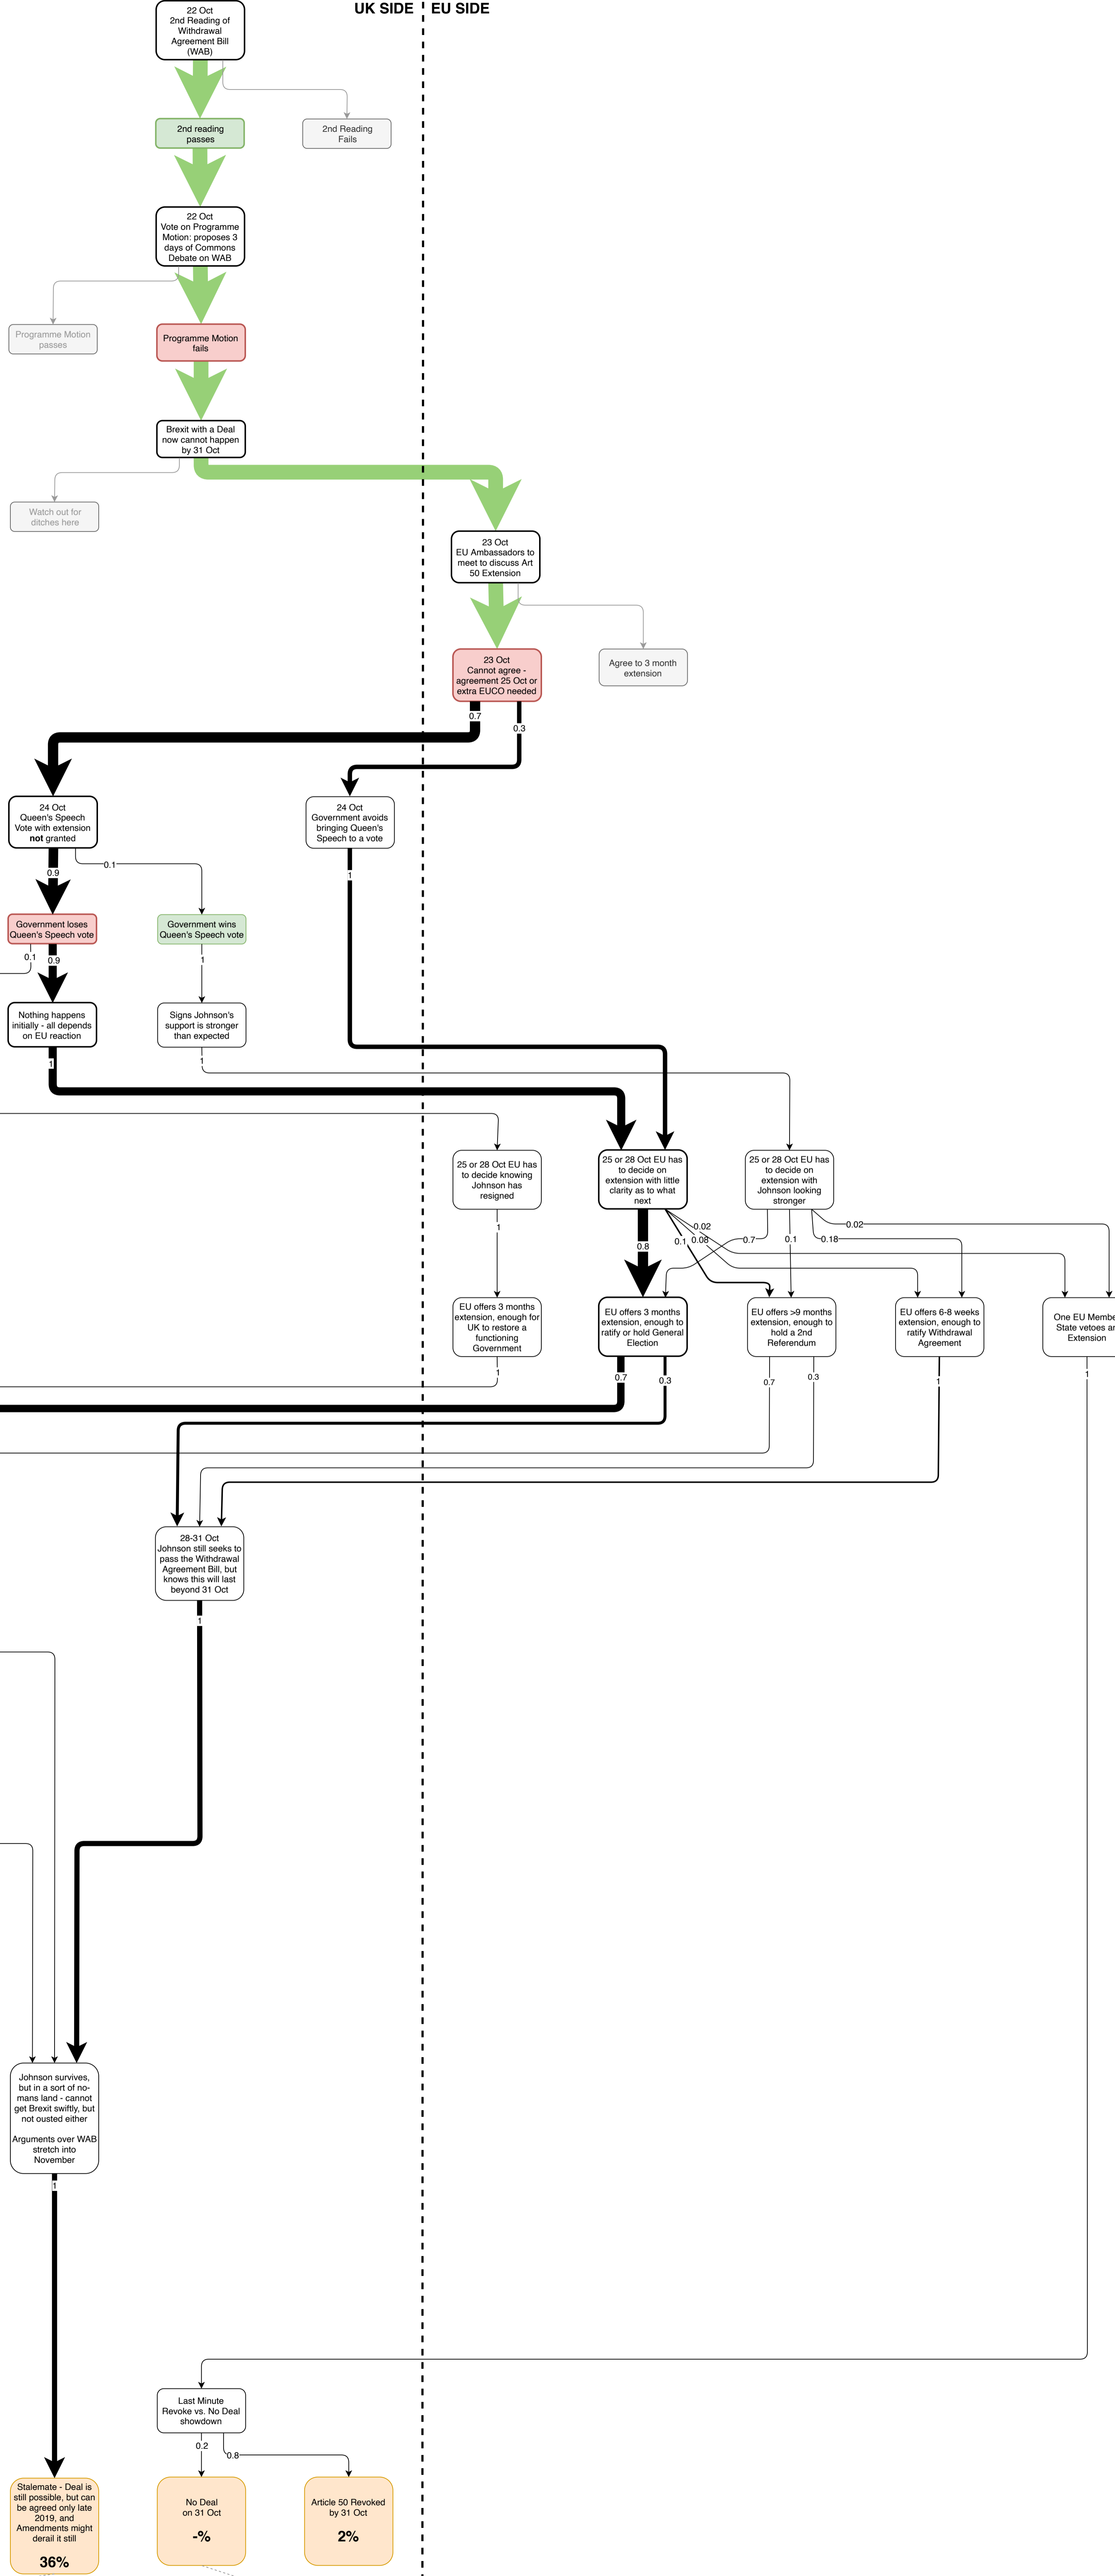

The thickness of the lines is proportional to  
the accumulated probability

Probability at each node is indicated with  
numbers - 0.1 to 1

Grey boxes indicate options which will  
happen anyway, are for info purposes

Probability of each outcome is indicated as  
a percentage in the orange boxes at the end

**UK SIDE | EU SIDE**

Combined chances of GE: 60%  
And yes, a GE is not an end point -  
but I cannot predict a GE just now!

A way out of the stalemate could be  
a GE or a 2nd Referendum

NOTE: this is only the chance of No Deal on  
31 October! No Deal after a General Election  
is still possible but probability not calculable!

General Election in  
late 2019  
(needs 3 month Art  
50 extension)  
**47%**

General Election in  
early 2020  
(needs 6-9 month Art  
50 extension)  
**13%**

2nd Referendum in  
mid-2020  
(needs 9 month Art  
50 extension)  
**2%**

Brexit with a Deal  
(agreed by 31 Oct,  
might need short Art  
50 extension to  
implement)

Stalemate - Deal is  
still possible, but can  
be agreed only late  
2019, and  
Amendments might  
derail it still  
**36%**

No Deal on  
31 Oct  
**-%**

Article 50 Revoked  
by 31 Oct  
**2%**
